unipharm ltd.  כוחו של כל אחד

CATALOGUE 2017
DISCLAIMER
The information in this catalogue is for commercial purposes only and should not in any way be used in making medical treatment decisions.
See professional literature for additional information.

Unipharm was founded in 1975 in Israel and since its early days was a dominant player in the pharmaceutical arena in Israel.

Unipharm is dedicated to the manufacture of generic pharmaceutical products of high quality, capable of competing on an equal footing with major international market leaders. Unipharm's products are sold under their brand-names and are therefore classified as branded generics.

Unipharm's product line marketed by Unipharm is extensive in scope, encompassing many therapeutic areas. The company has developed a strong commitment to the fields of cardiovascular medicine, neurology/psychiatry, gastroenterology, ophthalmology and antibiotics.

One of Unipharm's main skills is developing generic formulations and registering the generic's dossier as quick as possible, and therefore becoming in many cases the first generic entrant to the Israeli market and sometimes first generic in developed markets around the world. By doing that Unipharm was able to capture high market shares and lower the drug cost to health-customers. Many of Unipharm's new-product launches have made extensive change on patients' lives due to lower cost of drug-treatments and eased restrictions made by insurers.

Unipharm's skills enable it to collaborate with international generic player in exchange of knowledge in order to launch premium generics outside of Israel.

Another dominant feature is Unipharm's involvement in intellectual property activities. In the current pharmaceutical-IP environment where major pharmaceutical companies are protecting their product with multiple patents, Unipharm has the capabilities of accurately evaluating a product's patent protection suit and to act accordingly.

Besides the day to day manufacture of pharmaceuticals, Unipharm is also involved in the origination and initiation of pharmaceutical and pharmacological research, most of which is conducted in collaboration with Israeli academic institutes of higher education. The work focuses on the synthesis of pharmaceutical fine chemicals and the development of analytical methods that go beyond the scope of standard monographs, in order to ensure that the company's products are always of premium quality.

This constant striving for top quality directly contributes to the high esteem in which Unipharm's products are held, despite fierce market competition.
**AMLOW 5 & 10**

**Composition**
Each tablet contains:
AMLODIPINE (as MALEATE) 5 mg; 10 mg

**Indications**
Treatment of mild to moderate **hypertension. Vasospastic angina** (Prinzmetal’s or variant angina).
**Chronic stable angina.**

**Packing**
20 tablets

---

**ARIPLY 5, 10, 15 & 30**

**Composition**
Each tablet contains:
ARIPIPRAZOLE 5 mg; 10 mg; 15 mg; 30 mg

**Indications**
Treatment of **schizophrenia.**
Treatment of manic episodes in **bipolar I disorder.**
Preventing new manic episode in patients whose manic episode responded to aripiprazole. Ariply 5, 10, 15 is indicated for use as an adjunctive therapy to antidepressants for the treatment of **MDD.**
Ariply 5, 10, 15 is indicated for use in cases of irritability associated with **autistic disorder.**

**Packing**
28 tablets
**BACLOSAL 10 & 25**

**Composition**
Each tablet contains:
BACLOFEN 10 mg; 25 mg

**Indications**
Skeletal-muscle relaxant with spinal site of attack.

**Packing**
50 tablets

---

**CANDOR 8; 16 & PLUS**

**Composition**
- **Candor 8; 16** Each tablet contains:
  - CANDESARTAN CILEXETIL 8mg; 16mg
- **Candor Plus** Each tablet contains:
  - CANDESARTAN CILEXETIL 16mg
  - HYDROCHLOROTHIAZIDE 12.5mg

**Indications**
- **Candor:** For the treatment of [hypertension](#). Treatment of patients with [heart failure](#) and [impaired left ventricle systolic function](#).
- **Candor Plus:** Essential [hypertension](#), where monotherapy with candesartan cilexetil or hydrochlorothiazide is not sufficient.

**Packing**
28 tablets
CILARIL 1; 2.5; 5 & PLUS

Composition
Cilaril 1; 2.5; 5: Each tablet contains:
CILAZAPRIL 1 mg; 2.5 mg; 5 mg
Cilaril Plus: Each tablet contains:
CILAZAPRIL 5 mg
& HYDROCHLOROTHIAZIDE 12.5 mg

Indications
For the treatment of high blood-pressure.
Cilaril 1; 2.5; 5 are also indicated for the
treatment of chronic heart failure
(see literature for full indications).

Packing
28 tablets

CARDILOC 1.25; 2.5; 5 & 10

Composition
Each tablet contains:
BISOPROLOL FUMARATE
1.25 mg; 2.5 mg; 5 mg; 10 mg

Indications
Cardiloc 1.25, 2.5, 5 & 10:
Treatment of stable chronic, moderate to severe
heart failure with impaired systolic ventricular
function (ejection fraction < 35 %, determined
by echocardiography) in addition to ACE inhibitors
and diuretics, and optionally cardiac glycosides.
Cardiloc 5&10 are also indicated for:
Management of angina pectoris, hypertension.

Packing
30 tablets
**DEPREXAN**

**Composition**
Each dragee contains: DESIPRAMINE HCl 25 mg

**Indications**
Treatment of depression.

**Packing**
30 dragees

---

**CLOOD**

**Composition**
Each tablet contains CLOPIDOGREL (as HYDROGEN SULFATE) 75 mg

**Indications**
For the prevention of atherothrombotic events.

**Packing**
30 tablets

---

**DUPLEX 5/80, 5/160, 10/160**

**Composition**
Each tablet contains:
Amlodipine (as besilate) 5 mg; 10 mg
Valsartan 80 mg; 160 mg

**Indications**
Treatment of essential hypertension. Duplex is indicated for patients whose blood pressure is not adequately controlled on monotherapy.

**Packing**
28 tablets
EZECOR 10

Composition
Each tablet contains:
EZETIMIBE 10 mg

Indications
Primary Hypercholesteremia:
Administered with an HMG-CoA reductase inhibitor (statin)
or alone as adjunct to diet.
Homozygous Familial Hypercholesteremia (HoFC):
Administered with a statin.
Patients may also receive adjunctive treatments (e.g., LDL apheresis).
Homozygous Sitosterlaemia (Phytosterolamia):
Ezecor is indicated as adjunctive therapy to diet.

Packing
30 tablets

ESTO 10, 15 & 20

Composition
Each tablet contains:
ESCITALOPRAM (as Oxalate)
10 mg; 15 mg; 20 mg

Indications
Treatment of depression,
panic disorder, generalized
anxiety disorder (GAD), social
anxiety disorder (social phobia)
and Obsessive Compulsive
Disorder (OCD).

Packing
28 tablets
GASTRO 10 & 20

**Composition**
Each tablet contains:
FAMOTIDINE 10 mg; 20 mg

**Indications**
For the treatment and prevention of heartburn and hyperacidity in the upper gastrointestinal tract.

**Packing**
20 tablets

GASTRO 40

**Composition**
Each tablet contains:
FAMOTIDINE 40 mg

**Indications**
Treatment of gastric and duodenal ulcers, zollinger-ellison syndrome and oesophageal reflux disease.

**Packing**
20 tablets
GLAUTAN

**Composition**
Each ml contains: LATANOPROST 50 mcg

**Indications**
Reduction of elevated intraocular pressure as a first line treatment in patients with open-angle glaucoma and ocular hypertension.

**Packing**
2.5 ml bottle

LERCAPRESS 10 & 20

**Composition**
Each tablet contains: LERCANIDIPINE HCl 10 mg; 20 mg

**Indications**
Treatment of hypertension.

**Packing**
30 tablets

FLUDECATE

**Composition**
Each 1 ml contains: FLUPHENAZINE DÉCANOATE 25 mg & Benzyl Alcohol 1.2% in Sesame Oil.

**Indications**
Management of psychotic disorders.

**Packing**
5 ampoules
LEVO
Composition
Each tablet contains:
LEVOFLOXACIN 500 mg

Indications
In adults with infections of mild to moderate severity for the treatment of the following infections when due to levofloxacin - susceptible micro-organisms:
- Acute sinusitis, acute exacerbation of chronic bronchitis, community-acquired pneumonia,
- complicated urinary tract infections including pyelonephritis, skin and soft tissue infections.

Packing
5 tablets

LOTAN 12.5; 50; 100 & PLUS
Composition
Lotan 12.5; 50; 100: Each tablet contains:
LOSARTAN POTASSIUM 12.5 mg; 50 mg; 100 mg
Lotan Plus: Each tablet contains:
LOSARTAN POTASSIUM 50 mg & HYDROCHLOROTHIAZIDE 12.5 mg

Indications
For the treatment of high blood-pressure.
Lotan 12.5; 50; 100 are also indicated for the treatment of heart failure (see literature for full indications).

Packing
30 tablets

KARIN 250 & 500
Composition
Each tablet contains:
CLARITHROMYCIN 250 mg; 500 mg

Indications
For the treatment of infections caused by one or more susceptible organisms.
Lower respiratory tract infections, for example acute and chronic bronchitis, and pneumonia.
Upper respiratory tract infections, for example sinusitis and pharyngitis. For the treatment of skin and soft tissue infections of mild to moderate severity. Can be used in combination pump inhibitor for the eradication of H. pylori in patients with proven duodenal ulcers.

Packing
14 tablets
**MAXIBONE 10 & 70**

**Composition**
Each tablet contains:
- ALENDRONATE (as sodium salt) 10 mg; 70 mg

**Indications**
Prevention and treatment of glucocorticoid induced osteoporosis in men & women.
Maxibone 70: Maxibone is indicated for the treatment of osteoporosis in postmenopausal women.

**Packing**
- Maxibone 10: 30 tablets
- Maxibone 70: 4 tablets

**MELODIL 25 & 50**

**Composition**
Each tablet contains:
- MAPROTILINE HCl 25 mg; 50 mg

**Indications**
Treatment of depressive states and anxiety states associated with depression.

**Packing**
- 30 tablets

**MARONIL 25 & 75 S.R.**

**Composition**
Each Maronil 25 dragee contains:
- CLOMIPRAMINE HCl. 25 mg
Each Maronil 75SR slow-release tablets contains: CLOMIPRAMINE HCl 75 mg

**Indications**
Treatment of depressive states and Obsessive Compulsive Disorders (OCD).

**Packing**
- 25 mg: 30 dragees
- 75 mg: 20 tablets
**MEMORIT 5 & 10**

**Composition**
Each tablet contains: DONEPEZIL HCl 5 mg; 10 mg

**Indications**
Treatment of mild to moderately severe Alzheimer’s dementia.

**Packing**
28 tablets

---

**MEMOX 10, 20**

**Composition**
Each tablet contains: MEMANTINE HCl 10 mg; 20 mg

**Indications**
Treatment of patient with moderate to severe Alzheimer’s disease.

**Packing**
Memox 10: 56 tablets,
Memox 20: 28 tablets,

---

**MIRO 30 & 45**

**Composition**
Each tablet contains: MIRTAZAPINE 30 mg; 45 mg

**Indications**
Treatment of major depression.

**Packing**
30 tablets
**NOCTURNO FORTE 7.5 NOCTURNO 3.75**

**Composition**
Each tablet contains:
*ZOPICLONE 3.75 mg, 7.5 mg*

**Indications**
_Hypnotic_ when the disorder of insomnia is severe and disabling.

**Packing**
20 tablets

---

**NORLIP**

**Composition**
Each tablet contains:
*BEZAFIBRATE 200 mg*

**Indications**
Reduction of elevated blood levels of cholesterol and triglycerides.

**Packing**
60 tablets

---

**NEOBLOC**

**Composition**
Each tablet contains:
*METOPROLOL TARTRATE 100 mg*

**Indications**
Cardio-selective beta receptor blocker for the treatment of _hypertension and angina pectoris_, anti-arrhythmic, prophylaxis of myocardial infarction and migraine.

**Packing**
30 tablets
PERICATE

**Composition**
Each 1 ml ampoule contains:
HALOPERIDOL (as decanoate)
100 mg & Benzyl alcohol 1.5% in sesame oil.

**Indications**
Long term maintenance treatment of schizophrenia and mental or behavioral problems.

**Packing**
5 ampoules

---

PAXXET 20 & 30

**Composition**
Each tablet contains:
PAROXETINE (as HCl) 20 mg; 30 mg

**Indications**
Treatment of symptoms of depressive illness of all types, including depression accompanied by anxiety.
Treatment of symptoms & prevention of relapse of Obsessive Compulsive Disorder (OCD).
Treatment of symptoms and prevention of relapse of panic disorder with or without agoraphobia.
Treatment of symptoms of social phobia.

**Packing**
30 tablets
PRAVALIP 10; 20 & 40

**Composition**
Each tablet contains:
PRAVASTATIN Sodium 10 mg; 20 mg; 40 mg

**Indications**
Adjunct to diet to reduce elevated total-cholesterol, LDL and TG
(see literature for the full indications).

**Packing**
30 tablets

---

PRIDE 100, 400

**Composition**
Each tablet contains:
AMISULPRIDE 100 mg; 400mg

**Indications**
Treatment of schizophrenia

**Packing**
30 tablets
**PRIZMA & PRIZMA FORTE**

**Composition**
Each dividable tablet contains:
FLUOXETINE (as HCl) 20 mg: 60 mg

**Indications**
Prizma is indicated for the treatment of depression and Obsessive-Compulsive disorders (OCD).
For the treatment of binge-eating and vomiting behaviors in bulimia nervosa.

**Packing**
Prizma: (20mg) 30 tablets
Prizma Forte: (60 mg) 20 tablets

**PROCOR**

**Composition**
Each tablet contains:
AMIODARONE HCl 200 mg

**Indications**
For the treatment of arrhythmias and coronary insufficiency.

**Packing**
30 tablets
**PROTOCIDE**

**Composition**
Each tablet contains:
TINIDAZOLE 500mg

**Indications**
For the treatment of *Trichomonas* infections in the genito-urinary tract and for the treatment of *amoebiasis* and *lambliasis*. For the *prevention of postoperative infections* caused by anaerobic bacteria.

**Packing**
4 tablets

---

**RECITAL 20 & 40**

**Composition**
Each tablet contains:
CITALOPRAM HBr 20 mg; 40 mg

**Indications**
Treatment of states of *depression* or *panic disorder*.

**Packing**
28 tablets
**RIBONE 35 & 150**

**Composition**
Each tablet contains:
RISEDRONATE Sodium 35 mg; 150 mg

**Indications**
Prevention and treatment of osteoporosis in postmenopausal women only Ribone 35.
For the treatment of osteoporosis in men.

**Packing**
Ribone 35: 4 tablets,
Ribone 150: 1 tablet

---

**RISPOND 1; 2; 3 & 4**

**Composition**
Each tablet contains:
RISPERIDONE 1 mg; 2 mg; 3 mg; 4 mg

**Indications**
For the management of schizophrenia and manifestation of psychotic disorders.
For the treatment of psychotic manifestations of dementia.
For the treatment of behavioral disorders expressed by impulse control disorders or self-alienated-aggressive or treatment-requiring behavioral disorders with reduced or substandard intelligence.
For the treatment of mania in bipolar disorder (see literature for the full indications).

**Packing**
20 tablets

---

**RISPOND ORAL SOLUTION**

**Composition**
Each ml contains: RISPERIDONE 1 mg

**Indications**
For the management of schizophrenia and manifestation of psychotic disorders.
For the treatment of psychotic manifestations of dementia.
For the treatment of behavioral disorders expressed by impulse control disorders or self-alienated-aggressive or treatment-requiring behavioral disorders with reduced or substandard intelligence.
For the treatment of mania in bipolar disorder (see literature for the full indications).

**Packing**
30 ml bottle
**Indications**
For the treatment of **symptoms of depression** in patients with or without a history of mania.

**SERENADA 50 & 100**

**Composition**
Each tablet contains: SERTRALINE (as HCL) 50 mg & 100 mg

**Indications**
For the treatment of **symptoms of depression** in patients with or without a history of mania.

**Packing**
28 tablets

---

**ROXO**

**Composition**
Each tablet contains: ROXITHROMYCIN 150 mg

**Indications**
For the treatment of **infections** caused by microorganisms sensitive to roxithromycin e.g.: ENT bronchopulmonary, genital and skin manifestations.

**Packing**
10 or 20 tablets

---

**SLIDER**

**Composition**
Each tablet contains: SILDENAFIL (as citrate) 20 mg

**Indications**
Treatment of **primary pulmonary hypertension (PPH)** in adults.

**Packing**
90 tablets

---

**ROXO**

**Composition**
Each tablet contains: ROXITHROMYCIN 150 mg

**Indications**
For the treatment of **infections** caused by microorganisms sensitive to roxithromycin e.g.: ENT bronchopulmonary, genital and skin manifestations.

**Packing**
10 or 20 tablets
**SORBON 10**

**Composition**
Each tablet contains:
BUSPIRONE HCl. 10 mg

**Indications**
For the short-term management of anxiety disorders.

**Packing**
30 tablets

**STATOR 5, 10, 20 & 40**

**Composition**
Each tablet contains:
ROSUVASTATIN (as Calcium Salt) 5 mg; 10 mg; 20 mg; 40 mg

**Indications**
Primary hypercholesterolaemia or mixed dyslipidaemia as an adjunct to diet when response to diet and other non-pharmacological treatments (e.g. exercise weight reduction) is inadequate. (see literature for the full indications).

**Packing**
28 tablets

**SIMVACOR 10; 20; 40 & 80**

**Composition**
Each tablet contains:
SIMVASTATIN 10 mg; 20 mg; 40 mg; 80 mg

**Indications**
Adjunct to diet to reduce elevated total cholesterol, LDL and TG and to increase HDL (see literature for the full indications).

**Packing**
30 tablets
TARIM

Composition
Each tablet contains:
SILDENAFIL as Citrate
25 mg, 50 mg & 100 mg

Indications
Treatment of erectile dysfunction.

Packing
4 & 8 tablets

TRAZODIL 50 & 100

Composition
Each tablet contains:
TRAZODONE HCl 50 mg; 100 mg

Indications
For the treatment of depression.

Packing
30 tablets

TORID 10, 20, 40 & 80

Composition
Each tablet contains
ATORVASTATIN (as Mg Salt)
10mg; 20mg; 40mg; 80mg

Indications
Primary hypercholesterolaemia or mixed dyslipidaemia as an adjunct to diet when response to diet and other non-pharmacological treatments (e.g. exercise weight reduction) is inadequate.
(see literature for the full indications).

Packing 30 tablets
Indications
For the treatment of depression.

VENLA 37.5 & 75

Composition
Each tablet contains:
VENLAFAXINE (as HCl) 37.5 mg: 75 mg

Indications
For the treatment of depression.

Packing
28 tablets
VECTOR 80 & 160

**Composition**
Each tablet contains: VALSARTAN 80mg; 160 mg

**Indications**
For the treatment of hypertension, heart failure or following myocardial infarction.

**Packing** 28 tablets

VECTOR PLUS 80/12.5; 160/12.5; 160/25

**Composition**
Each tablet contains:
- VALSARTAN 80mg & HYDROCHLOROTHIAZIDE 12.5mg;
- VALSARTAN 160mg & HYDROCHLOROTHIAZIDE 12.5mg;
- VALSARTAN 160mg & HYDROCHLOROTHIAZIDE 25mg

**Indications**
For treatment of hypertension in patients for whom combined therapy is needed.

**Packing** 28 tablets

ZETO 250

**Composition**
Each tablet contains: AZITHROMYCIN 250 mg

**Indications**
For infections caused by susceptible organisms, low respiratory tract infections including bronchitis and pneumonia, skin and soft tissue infections, otitis media and in upper respiratory tract infections including sinusitis and pharyngitis/tonsilitis.

It is also used for the treatment of uncomplicated genital infections due to chlamydia trachomatis.

**Packing** 6 tablets
ZAPPA 5, 7.5 & 10

**Composition**
Each tablet contains:
OLANZAPINE 5mg; 7.5mg; 10mg

**Indications**
Treatment of schizophrenia.
Management of the manifestations of psychotic disorders.
Short-term treatment of acute manic episodes associated with Bipolar I Disorder.
Prevention of recurrence in Bipolar Disorder in patients whose manic episode has responded to olanzapine.

**Packing**
30 orodispresible tablets

ZAPPA ODT 5 & 10

**Composition**
Each tablet contains:
OLANZAPINE 5mg; 10mg

**Indications**
Treatment of schizophrenia.
Management of the manifestations of psychotic disorders.
Short-term treatment of acute manic episodes associated with Bipolar I Disorder.
Prevention of recurrence in Bipolar Disorder in patients whose manic episode has responded to olanzapine.

**Packing**
30 tablets
ZODORM

Composition
Each tablet contains: ZOLPIDEM HEMITARTRATE 10 mg

Indications
For the treatment of insomnia (not more than 4 weeks)

Packing
20 tablets
